

# Vitalii Mieliet

Fullstack Developer

## Summary

Fullstack developer with proficiency in React, Next.js, Node.js, TypeScript, JavaScript, HTML, and CSS. Experienced in delivering solo and collaborative training projects using Agile methodologies, Git version control, and REST API integration. Skilled in building responsive, accessible, and maintainable UI with clean, modular architecture. Background in technical support and e-commerce enhances communication, attention to detail, and analytical problem-solving. Interested in and eager to grow in the field of modern, user-centric web and mobile application development.

## Project experience

### Podorozhnyky | [Live Demo](#) • [GitHub](#)

Sep 2025

**Tech stack:** Node.js, Express.js, MongoDB, React, Redux Toolkit, Vite, Axios, Git/GitHub.

**Role:** Frontend Team Lead.

- Led frontend setup and base configuration in a monorepo (TurboRepo).
- Implemented authentication flow with registration, login, refresh, and logout.
- Refactored authentication pages (forms) and split profile into "Saved" and "Created" stories.
- Managed task distribution, performed code reviews, and ensured clean, reusable component structure.

### TravelTrucks | [Live Demo](#) • [GitHub](#)

Jul 2025

**Tech stack:** React, Redux, Vite, Axios, MUI, Formik, Git/GitHub.

**Role:** Developer.

- Developed a modern single-page React application for browsing, filtering, and booking travel campers.
- Implemented camper catalog with server-side filtering, pagination, and "Load More" feature.
- Added detailed camper pages with tabs, photo gallery, booking form, and "Favorites" with Redux + persistence.
- Used modular architecture, reusable UI components, and Axios for API integration.

### ArtistsHub | [Live Demo](#) • [GitHub](#)

May 2025

**Tech stack:** HTML, CSS, JavaScript, REST API, Vite, MVP architecture, Git/GitHub.

**Role:** Team Lead, developer.

- Led and coordinated the team, managed sprints, reviewed code.
- Implemented key modules: REST API integration, reusable modal window system, filtering (search, sort, genre filters), and general code refactoring.
- Enhanced skills in modular architecture (MVP), API, and performance optimization.

## Work experience

### Shuzy.Online

Oct 2019 - May 2022

#### Online Store Owner

- Set up and launched an online store using Insales and PromUA platforms
- Managed SMM strategies and advertising campaigns on Instagram and Facebook
- Handled customer communication, inquiries, and support

Achievement: Successfully launched and grew a small e-commerce business from scratch

### Pharmacy Chain "Magiya Farm"

Apr 2017 - Sep 2019

#### Technical Support Manager

- Provided technical support for 1C users at the office and pharmacy outlets
- Managed outsourced development tasks and monitored progress
- Collected requirements for 1C add-ons and ensured timely issue resolution

Achievement: Developed a knowledge base that reduced support inquiries by 35%
